### TO WHOM SO EVER IT MAY CONCERN

Reference :- PO No. 31823016 dated 25/05/2018 Procurement of Automation Studio

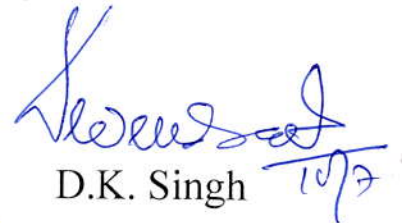

This is to certify that IndiaSoft Technologies (P) Ltd., has successfully installed and trained our faculty on Automation Studio 6.3 at our Tool Room Training Centre on 18<sup>th</sup> to 22<sup>nd</sup> Jun. 2018.

We found this software very user friendly and it is applicable to cover theory and practical concepts of hydraulics, pneumatics & especially in Mechatronics subjects. Apart from the simulation, Automation Studio also shows the behaviour of components & circuits under different environmental & loading conditions in a very realistic way, which is truly impressive than any other simulation software. It also incorporates the different domain areas such as hydraulics, pneumatics, design sizing, mechanisms, electrical, digital, PLC, SFC & 2D/3D animation which makes it a very strong interdisciplinary software.

Automation Studio will help to start new industry oriented courses on Mechatronics and fluid power which can open new area for our Tool Room.

We are also thankful to the IndiaSoft Technologies (P) Ltd. Pune for their support and service and wish them all the best.

Thanking you,
